

World Upside Down: The Life of Paul, God's Chosen Messenger by Louis McCall

Unveiling the Transformative Power of Grace in the Life of Paul

Renowned author and diplomat, Louis McCall, unveils his latest literary masterpiece, "World Upside Down: The Life of Paul, God's Chosen Messenger." This compelling work delves into the transformational journey of Saul, a once uncompromising Pharisee turned passionate advocate for the gospel of grace.

In this riveting narrative, McCall traces the remarkable arc of Saul's life, from his zealous persecution of early Christians to his divine encounter with the risen savior, Jesus Christ. The book vividly captures Saul's radical transformation into Paul, a fervent defender of Jesus and His teachings. McCall takes readers on a journey through the first-century Roman Empire, exploring Paul's tireless efforts to spread the message of grace, repentance, and the lordship of Jesus Christ.

"Saul was a man driven by rigid beliefs and prejudice, but his encounter with Christ turned his world upside down," says McCall. "This book seeks to illuminate the transformative power of faith and the potential for redemption in even the most unlikely individuals."

Louis McCall, a distinguished political scientist with a Ph.D. from Northwestern University and a seasoned diplomat with over three decades of service in the U.S. Department of State, brings a unique perspective to the narrative. Apart from his diplomatic achievements, McCall has a rich history of living out his faith globally, engaging in part-time ministry, and collaborating with missionaries and national church leaders.
